## Urban Design Group Names Quincy Tiller III as Building Information Modeling Director

*Urban Design Group, an award-winning architectural firm, recently named Quincy Tiller III to the newly-created position of BIM Director for the Atlanta studio.*

Dallas (TX), December 14, 2011 – The Principals of Urban Design Group (UDG), a multidisciplinary architectural firm, are pleased to announce that Quincy Tiller III has been named to the new position of Building Information Modeling (BIM) Director for the Atlanta studio. As the BIM Director, Tiller will establish standards and continue to research and keep abreast of all Revit and BIM advancements regarding software and hardware. He will bring to the forefront his knowledge of these new tools and help each project team with the setup and direction of Revit and/or BIM. He will also act as a trainer to UDG's staff on an ongoing basis.

Tiller earned his Bachelor of Architecture degree from Southern Polytechnic State University in 2002. He first joined Urban Design Group in 2006 and has since rejoined the firm in 2009, bringing nine years of experience in the design of retail, office buildings and mixed-use projects. He has participated in many aspects of the design process, including design development, master planning, site planning, construction documentation and construction administration.

Tiller's software skills include AutoCAD, Architectural Desktop, Photoshop and Microsoft Project. He is also proficient in Revit Architecture 2009 and Revit MEP, and has provided instructional training courses in Revit MEP to architectural and engineering firms.. Outside of the studio, Tiller is active with the First Baptist Church of Woodstock.

"UDG is a leader in using technology to enhance our design and production capabilities," said Donald C. Buenger, AIA, LEED AP, Principal with UDG's Atlanta studio. "Our creation of the new position of BIM Director for Atlanta demonstrates our commitment to this exciting technology. Quincy has demonstrated his extreme dedication and drive to advance this

technology throughout the firm allowing us to perform in our profession at the highest level. We are proud to name him to this important new position.”

**About UDG’s Use of BIM:**

Urban Design Group is a trailblazer in the application of BIM technology, including quantifying cost through design, construction logistics and building lifecycle management. UDG’s expertise with BIM is unmatched in the country.

The UDG team uses some of the latest technical tools to design and execute projects that are energy efficient, economical – in both first cost and operations, and integrated into the construction process. The use of Virtual Design and Construction tools on the University of Southern California School of Cinematic Arts project led to:

- An 8% construction cost savings from the first phase to the second phase,
- Significant time savings in the construction schedule, and
- Delivery of a group of five buildings that are performing at about 20% better than the California Energy Code minimums.

**About Urban Design Group:**

Urban Design Group offers architectural, interior design and urban master planning services to its worldwide clientele from studios in Atlanta, GA, and Dallas, TX. A market leader in the application and advancement of Building Information Modeling (BIM) technology, UDG's personnel work on a wide range of projects from hospitality, resort, gaming design and Native American design projects to corporate, university facilities and urban mixed-use developments.

In the firm's 36-year history, Urban Design Group has completed more than \$6 Billion dollars in projects worldwide. The firm has received more than 80 design excellence awards and honors, 15 design competition awards and has been featured in hundreds of magazine articles, newspaper pieces and design resource books.
